as entrepreneur & developer

I take AI systems from a clear problem statement into production: with an experienced development team, clean integration and measurable value in daily operations.

WHY COMPANIES WORK WITH ME

- ✓ Business case before technology
- ✓ Trusted by executives, domain teams and IT alike
- ✓ Enterprise architecture, security and governance
- ✓ Hands-on delivery with an experienced development team
- ✓ One accountable point of contact from strategy through use-case selection to go-live

From regulated enterprise environments to tech startups: security, data quality, scalability. · **Recent references:** AI Support Copilot for 3M end customers, 94 % answer quality · access-secure AI knowledge platform for 100+ employees, onboarding 80 % faster
